WHAT WOULD BE THE LONG-TERM RESULTS FOR CITIES, TOWNS AND/OR VILLAGES IF THIS SOLUTION WERE IMPLEMENTED IN EAST ASIA, AND AROUND THE WORLD? (200 words)

(Note: we suggest your team answer this question after completing the rest of the Case Study as it is meant to provide a summary – the why and the how– of the Case Study beyond stating the problem and solution. In many ways, this is your “make the case” closing argument and laying out the importance of the initiative your team is writing about, i.e., if this solution were to be replicated and scaled everywhere where viable). DIRECTIONS FOR COMPLETING CASE STUDY

Dear Teams,

- 1) A number of the winning Case Studies will be printed into a CAPP report (without any format changes, if possible, we will award a small number of points for completing the Case Study by following these rules. Every team should receive the maximum points:
 - a. Please use Calibri font 10 for your answers.
 - b. Add your team's relevant information in the Header, replacing the placeholder name, location, team name, school.
 - c. Replace all "Lorem ipsum" passages throughout with your answers. These passages are placeholders for your answers.
 - d. Erase the (XXX words) and all other (Red Font directions) as these directions should not be part of your Case Study.
 - e. Replace the RED font with what is requested to add in its place, where applicable
 - f. Please adhere to the word limits.
 - g. Please use this Case Study "template" format.
 - h. Replace the footer information with your team name and initiative name
- 2) Interviewing the stakeholders: As you view the Case Study Parts I, II and III, it is designed to make your team provide a detailed background about the initiative itself, in its current state, and to think what could be possible if the current initiative had more financial and other resources in its current location; and, most important, how your team could recommend replicating/scaling the initiative and what has to happen. We hope you'll reach out to the stakeholders and work with them to answer these questions. The more comprehensive your answers, the more believable your answers will be, and the more credible your Case Study becomes.
- 3) Building the Story: In Parts III and IV, there are no wrong answers. Your Case Study should "Make the Case" why and how your initiative should be replicated and scaled. The more compelling your story, the greater the possibility that there will be interest by other stakeholders in East Asia to replicate the initiative and reach out to CAPP.Global to see how they can get involved to do so.
- 4) CAPP.Global may showcase all winning Case Studies on its web site (CAPP.Global). At the appropriate time, we will require written permission from the stakeholder your team is writing about.
- 5) Non-Confidentiality: Please do not submit any information that should remain confidential. All information provided to the "Make the Case" competition should be public information. There will not be any NDAs signed by reviewers, judges or anyone affiliated with this competition.
