MAKE THE CASE - EAST ASIA FINALS TEAM

## Kristi Anne D. Seredrica | Ateneo de Manila University

Kristi recently graduated with a degree in BS Biology and specialization in Biomedical Science. She is interested in methods that make it easier to communicate scientific information to the general public, especially through writing and graphic illustrations, given her experience as an illustrator in school publications. She worked in a collaborative research for thesis, which reinforced her appreciation for teamwork as a solution to global problems. She hopes to contribute to the body of work that aims to improve quality of life using medical and environmental applications.

KRISTI ANNE D. SEREDRICA  
Team Leader

## Jean Marcus A. Sahagun | Ateneo de Manila University

Marcus is a fresh graduate with a degree in BS Biology and specialization in Cell and Molecular Biology. His learnings from university about “magis”, being “men and women for others”, and “cura personalis” has taught him the value of youth-led initiatives and acts of service, something he has had much experience in as member and officer for several school organizations such as the Ateneo’s biological organization. He aims to pursue a career in medicine, and to serve the community as a care provider, decision maker, communicator, and community leader.

## Cerdan III G. Lopez | Ateneo de Manila University

Cerdan recently completed his BS Biology degree from the Ateneo de Manila University. He is interested in the marine sciences and has participated in school-organized projects on marine rehabilitation. He also took up subjects on aquaculture at the Norwegian University of the Life Sciences during his Ateneo Junior Term Abroad program and has written about microplastics and its impacts. He has served as editor for the Ateneo’s biological organization’s official publication for two years, and aims to further his advocacy and communication skills in the future. He aims to pursue a career in medical genetics in order to provide support and care for those with genetic disorders.
